

Becoming Sustainable Montréal through action and leadership

Description

The Ville de Montréal is making sustainability a reality. From electrifying transport to promoting urban agriculture, Montréal is enacting policies and initiatives that reduce greenhouse gas emissions and help create a safe, resilient, inclusive and sustainable city. As host of the ICLEI World Congress 2018, Montréal's initiative on climate and sustainability will be on display when local and regional leaders

from around the world come together to show how they are advancing sustainable urban development worldwide. Through its Sustainable Montréal 2016-2020 plan, the city is taking on four key priorities: Reduce greenhouse gas emissions and dependence on fossil fuel Strengthen biodiversity, increase green space, protect and ensure the efficient use of natural resources Plan on the human scale, ensuring access to healthy, sustainable neighborhoods Transition to a green, circular and responsible economy.
